

Please do not overturn the policy that has spared me and my family the nuisance of telephone calls at home. We do not want this change. The banks involved who desire this change include all the banks around my small town. I have no power over them; they are the only options around me. I can't "take my business elsewhere" since they have acted together as a block. So I appeal to you directly to maintain the policy that has been so positive. The banks do not need this to serve me well. Thank you for considering my position and my desire. Douglas Low
